National Polytechnic University  
Institute Bamenda

## Certifications

- **HackerRank JavaScript Specialist Certificate**  
6 October 2023 [view cert](#)

## Articles [See all articles on medium](#)

- [Configure Tailwind in Svelte](#)
- [My Journey Learning Svelte](#)
- [Getting started with Ipgeolocation](#)

## Hobbies

- Basket ball
- Music
- Digging more JavaScript.

## EXPERIENCE

### [Aftawallet](#)

#### Junior Frontend developer (Intern)

September 2023- October 2023

I handled a user's dashboard for admins. Onboarded myself to a 2+ year old code base, and was able to manage users querying, and mutating data.

### [Azen-Enterprise](#)

#### Full Stack developer

October 2023 - March 2024

I built APIs in the backend for Authentication, and other uses, also worked on the frontend mainly with NextJs while working [@Azen-Enterprise](#)

## PERSONAL PROJECTS

### [R-Cloud](#)

TypeScript, NextJs (AppRouter), Firebase(Auth, Storage, FireStore)

A Cloud Storage service, built for storing saving, and downloading files in cloud (storage) and configured as a PWA.

### [Portfolio Site](#)

TypeScript, NextJs, NestJs, MongoDB, Tailwind, Jest Testing Libray

My Portfolio site, also has my blog added to it. Currently building a dashboard to manage the it's content

### [Food Recipe App](#)

JavaScript, ReactJs

A Food recipe App built with no backend. Utilizes locastorage. and greatly focused on routing.

### [krash-weather](#)

TypeScript, NextJs, Tailwind, Styled-Components, IPgeolocation

Used Ipgeolocation for this weather app. Get's your current weather and a forecast based on your Ip address plus an ability to search other locations and get a 5 day forecast.

### [Node-express-js-template \(with TS\)](#)

TypeScript, NodeJs, Sass, EJS, MongoDB, FS-module

A ready-to-use node js(express js) template setup with typescript, Sass, Ejs, MongoDB, and mongoose. Intended to be Open-source
